Please also know that a people, that is Turks, who welcomed Jews that were persecuted during the Spanish inquisition in the 15th century, helped mass-starving Irish people by sending shiploads of food during the 1845-1849 Great Famine, and rescued thousands of Jews from the Nazi terror during WW-II, cannot commit the hideous act of genocide against a minority which it embraced and considered “a loyal nation” for 6 centuries.

“Armenian genocide” is a mere allegation that has no historical basis, and likewise no legal basis. Hundreds of historians do not consider the 1915 events in Ottoman Anatolia as genocide. The requisites of the 1948 UN Genocide Convention, the 2013-2015 decisions of the European Court of Human Rights, and the determination of France’s Constitutional Council in 2016, also mitigate against the recognition “Armenian genocide.” The UN has not recognized “Armenian genocide.”

Should you wish additional information, we will be glad to provide such information.

We also take this opportunity to send to your office, through the regular mail, a copy of a book, “*Armenia: Secrets of a 'Christian' Terrorist State*,” (2002) by the late Arkansas Judge Sam Weems.

Respectfully,
